

Hassle-free Regular Payments abroad with no charges*

You can use our Regular Payment Plan for the best value when sending smaller transfers abroad on a regular or repetitive basis. Currency Index can process these payments automatically, whether for your monthly mortgage payment, transfer of a pension overseas, or ad-hoc maintenance for your overseas property.

Our exchange rate is guaranteed to be within 2c of the mid-market rate at the time of transfer – meaning great value for you, no form-filling for each payment, and no need to remember to make payments to us if you set up a standing order.

*There are no charges for payments £500 or more. Payments of under £500 will be subject to a £5 transfer charge per payment

Example Savings

Sending £1,000 per month to a Spanish bank account with Currency Index's Regular Payment Plan will give you around €479 per year more than with a typical high street bank. Plus, if you set up a standing order to us, there is

nothing for you to do each month; payments will arrive with Currency Index and be automatically transferred to your chosen overseas account each time we receive funds from you.

	Sterling Sent	Exchange Rate	Transfer Fee	Euros Received	Monthly Saving	Annual Saving
Currency Index	£1000	1.15	£0	€1150.00	€39.91	€479.00
High Street Bank	£1000	1.1270	£15	€1110.09		

If you prefer, you can make ad hoc payments as and when needed, without needing to tell us each time; and, as there is no contract to sign and no minimum commitment,

you can start, stop or change your payment dates or amounts, whenever you like.

Setting up your Regular Payment Plan

Setting up your payments is simple. Using our dedicated Regular Payments client account, and your client reference, you can set up a standing order or ad-hoc payments on your online banking platform. Inform your dedicated Currency Consultant of your chosen beneficiary account, and we will link the two so that any payments arriving in our Regular Payments account, will be transferred automatically.
